

Summary

BOOK

LUTETIAN STRATOTYPE	6
Foreword Patrick de Wever.....	6
Acknowledgements.....	8
Introduction Didier Merle.....	10
From the geological time scale to the stratotype Patrick De Wever, Annie Cornée.....	12
Origin of the name, location in the geological time scale and boundaries of the stage Patrick de Wever, Annie Cornée.....	26
THE HISTORICAL BACKGROUND	29
Some major contributors to Lutetian palaeontology Didier Merle.....	30
A selection of biographies Didier Merle, Patrick de Wever, Jean-Pierre Gély.....	41
THE GEOLOGICAL CONTEXT	49
The geographical and geological setting Patrick De Wever, Annie Cornée.....	50
The stratotype sites Didier Merle.....	52
Additional remarkable sites Didier Merle, Philippe Courville.....	57
The Lutetian stratigraphy and palaeogeography in France Jean-Pierre Gély.....	70
The palaeogeography of the world and of the Mediterranean Basin during the Lutetian Patrick De Wever, Annie Cornée.....	96
THE PALAEOLOGICAL CONTENTS	101
The collections Didier Merle.....	102
A selection of plates of characteristic fossils Didier Merle.....	124
The inventory of the palaeontological contents Didier Merle.....	158
The Paris Basin Lutetian: an example of palaeobiodiversity hotspot Didier Merle.....	160
The residual coloured patterns of Lutetian shells from the Paris area Didier Merle, Jean-Michel Pacaud, Aurélie Kriloff, Philippe Loubry.....	167
THE LUTETIAN AND HUMANKIND	217
The history of Lutetian limestone quarrying Jean-Pierre Gély.....	218
The limestone of monuments Patrick De Wever, Annie Blanc, Annie Cornée, François Fröhlich.....	226
THE GEOLOGICAL HERITAGE	237
Stratotypes and the geological heritage Patrick De Wever, Annie Cornée, Yoann Le Néchet.....	238
The current state of the Lutetian geological heritage Didier Merle.....	251
APPENDICES	259
References.....	260
Glossary.....	266
Websites of online collection databases and postal addresses of conservation centres.....	273
Websites and museums Didier Merle.....	275
Addresses of the authors.....	277
Geological time scale.....	279
Simplified geological map of France.....	280

ADDITIONAL CONTENT

THE PALAEOLOGICAL CONTENT OF THE LUTETIAN OF THE PARIS BASIN	281
PRESENTATION OF THE LIST	282
KINGDOM PROTISTA	284
CLADE HAPTOPHYTA D. De Franceschi	284
Class <i>Foraminifera</i> D. Merle	286
KINGDOM ANIMALIA (Metazoa)	296
Phylum <i>Porifera</i> D. Merle	296
Phylum <i>Cnidaria</i> C. Chaix	296
Phylum <i>Echinodermata</i> J. Roman	298
Phylum <i>Hemichordata</i> D. Merle	301
Subphylum <i>Urochordata</i> D. Merle	301
Class <i>Chondrichthyes</i> D. Dutheil	302
Class <i>Actinopterygii</i> D. Dutheil, H. Lapierre & J. Gaudant	304
Order <i>Crocodylia</i> F. De Lapparent & S. Jouve	312
Order <i>Squamata</i> J.-C. Rage	312
Order <i>Chelonii</i> F. De Lapparent & S. Jouve	312
Class <i>Mammalia</i> E. Gheerbrandt	312
Class <i>Thecostraca</i> R.-P. Carriol	314
Class <i>Malacostraca</i> R.-P. Carriol	314
Class <i>Ostracoda</i> C. Guernet	315
Phylum <i>Brachiopoda</i> J.-M. Pacaud	318
Phylum <i>Bryozoa</i> P. Moissette	319
Phylum <i>Mollusca</i> J.-M. Pacaud	325
Phylum <i>Annelida</i> D. Merle	393
KINGDOM PLANTAE D. De Franceschi	394
LIST AND ADDRESSES OF AUTHORS	402
